**Letter of Appreciation:**

On behalf of the Board and staff of Grace Community Development Agency, Nigeria, we hereby express our profound appreciation and gratefulness for the labor of love you have shown our people. This you have demonstrated by the recent Medical Mission trip you took to Nigeria to help the communities where we work. By your coming, you have enabled us demonstrate the love and bond that we share as Christian missions of mercy. The three villages of Ajuye, Bassa, Gitata and Moro extend their heartfelt gratitude to your team and to the donor agencies for the drugs that were administered to our people. We will put a comprehensive report of the trip together. For now, we have received lots of testimonies of the souls that were touched by the outreach. Several people have reported improvements from their medical conditions after the Mission. We are looking forward to another opportunity where we can follow-up and conduct further outreaches for our needy people. May God bless you richly in all things. Let me end with a quote by Rev. Ali Mailafiya who was one of the coordinators at Gitata village during the medical outreach. "I have been visited by both Muslims and Christian beneficiaries of the drugs we gave. Many of them have expressed their joy for this extra ordinary demonstration of love. They have requested that we consider their plight and make a return visit as the Lord provides". We will continue to be a source of blessing to the needy around the world as long as the Lord grants us the opportunities. This was a tremendous opportunity, and we thank all your donors for their service of love for Christ.

Sincerely,

Silas Dauji

Director, Grace Community Development Agency
